

Monkton Energy Committee

Meeting Minutes
February 16, 2022

Attending: Mark Boltz-Robinson

Absent: Chris Boekman, Alex Perkins

Guest: David Bristol, Harry Atkinson

As current committee members were absent, there was a lack of quorum.

The guests were both interested in being members of the committee, so M. Boltz-Robinson briefed them on current committee work -

1. Town Hall rooftop solar
2. Town Hall EV charging station
3. Battery storage options for Town Hall
4. Energy Efficiency promotions
5. Updates over longer term to EEP

Provided both members with guidance on next step to being appointed to the committee by the Selectboard.
