WEATHER:

75 °F, Partly Cloudy

GME HOURS ON SITE:

7:45-8:00am (Hollow Rd.); 8:10-8:30am (Monkton Rd.);

8:40-9:00am (Old Stage Rd.)

WORK OBSERVED:

Hollow Road:

- Michels R.O.W. Crew was taking apart the existing mat bridge across the stream/wetland area (STA. 1398+00) and rebuilding it ~20 feet to the east inside the L.O.D. The existing bridge was in the pipeline pathway. Foreman stated that R.O.W. crew would be unloading (2) bulldozers to begin smoothing the pipeline path. Also stated that there would be HDD to avoid disturbance of the Harsh Sunflower, north of Hollow Road (~Sta. 1382+00 - 1384+75). Crew likely to be done this area by end of Tuesday.

Monkton Road:

- Michels Crew was working along pipeline route ~1490+00± to 1503+00± performing cleanup and support for other crews. Monkton Road/Arch Site 1561 bore is complete. Arch Site 1562 is complete. Waiting for drill on Drinkwater Rd before drilling Swamp, schedule indicates around 7/12.

Old Stage Road:

- Road still closed to thru traffic. MDB & JAM crews on-site working on removing rock from pipeline route. Crusher on-site working, producing what appears as 1" minus crushed stone. Road in poor condition, bulldozer was regrading during observation.

OTHER: No other interactions.
