The PC is looking for input for revisions to Monkton's Unified Planning Document (zoning regulations). There is a current round of updates, which are largely complete and will go to the voters in March 2021. There will be another round of updates later in 2021, which we can contribute recommendations to for improved zoning and subdivision regulations.

- a. From ANAC's perspective what is important to have accounted for in the Unified Planning Document? Need to account for the Pond Brook Management Area, wetland complex extending from Rotax Rd/Raven Ridge, improve reference maps for different layers like soil types and habitat connectivity, and consider how the UPD could better reflect the Town Plan on these topics.
- b. Here is a little bit on the pressure that Monkton could be facing in the near term, and why ANAC might be concerned that there might be significant development before ecological concerns are addressed properly.
