- a. From ANAC's perspective what is important to have accounted for in the Unified Planning Document? Need to account for the Pond Brook Management Area, wetland complex extending from Rotax Rd/Raven Ridge, improve reference maps

for different layers like soil types and habitat connectivity, and consider how the UPD could better reflect the Town Plan on these topics.

- b. The pressure that Monkton could be facing in the near term, and why ANAC might be concerned that there might be significant development before ecological concerns are addressed properly is covered in this article:
